Deaths Due to Certain Conditions Originating in the Perinatal Period: ICD-10 codes P00-P96 as underlying cause of death

Source: California Department of Public Health, Center for Health Statistics, Office of Health Information and Research, Death Statistical Master Files; SANDAG January 1 population estimates (2001-2010 est. released July 2012; 2011 est. released Sept. 2012)

^{*} Rate not calculated for fewer than 20 deaths in this category.

^a All rates are per 100,000 population. Rates may vary slightly from previously published data due to updated population estimates.

^b Adjusted rates are adjusted to 2000 U.S. Standard Population.

^c Deaths with unknown age, region or race/ethnicity are reflected in the county total, but not in the individual categories. Category sums may not add up to county total.

^d Race/ethnicity data may be different from previously published data due to reporting modifications.
